

READY REGIONS SOUTHEASTERN: COORDINATED ENROLLMENT

Ready Region Southeastern has been charged with helping Virginia identify current needs and opportunities for improving enrollment for families across the state. As part of the RRSE agreement, communities are committed to increasing access to expand equitable early childhood opportunities through the exploration and implementation of coordinated enrollment strategies.

Targeted Work Groups

1. Informational Resources
2. Information Campaigns
3. Eligibility Determination
4. Application Process
5. Waitlists

3 Established Sub-Regions

Eastern Shore

Accomack & Northampton Counties

Hampton Roads

Chesapeake, Norfolk, Portsmouth,
Virginia Beach

Western Tidewater

Franklin, Isle of Wight County,
Southampton County and Suffolk

RRSE PARTNERS

- ❖ Child Care Centers
- ❖ DSS Representatives
- ❖ Early/Head Start Representatives
- ❖ ECSE Providers
- ❖ Families
- ❖ Family Day Homes
- ❖ Family Day Programs
- ❖ Mixed Delivery Programs
- ❖ Private Child Care Representatives
- ❖ School Divisions
- ❖ VPI Representatives

READY REGIONS SOUTHEASTERN: COORDINATED ENROLLMENT

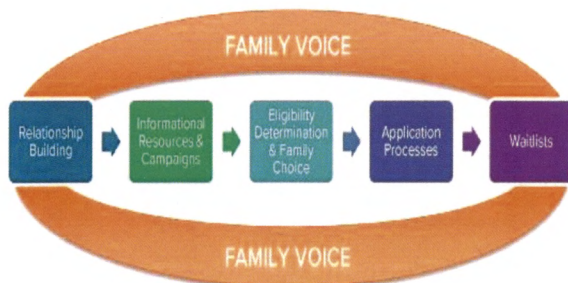

Why Coordinated Enrollment?

Coordinated Enrollment is part of a broader vision for building Virginia's unified system that ensures access to **HIGH QUALITY** early childhood care and education (ECCE) for **ALL** Virginia Families.

Centering Family Voice

Family voice is integrated throughout as a critical driver of the work.

Benefits of Coordinated Enrollment:

- ★ Families understand their options and can make a well-informed decision for their child
- ★ Planned, purposeful inclusion of ECCE options for children with delays and disabilities
- ★ Collaboration across ECCE providers
- ★ Less duplication of efforts and reduced administrative burdens for providers
- ★ Fuller enrollment and stability for providers, allowing for efficient longer-term planning
- ★ Opportunity for community-wide planning and reflection on barriers to enrollment, including an explicit focus on building equitable enrollment systems that prioritize the children and families that are least likely to have access to quality ECCE.

Virginia's Coordinated Enrollment Annual Cycle

As a funded state priority, there are two key components of Virginia's coordinated enrollment annual cycle:

Self-Assessment Tool and Work Plan.

Coordinated Enrollment Self-Assessment:

The Self-Assessment helps regions identify areas of strength and areas for focused improvement (at either the regional or community level).

Coordinated Enrollment Plan:

Based on results of the Self-Assessment, each Sub-Region will develop specific goals for the Coordinated Work Plan for the upcoming enrollment year.
